Hello!

Hi! It's great to have you here. How can I help you today?

Good morning

Hello! How may I assist you today?

How are you?

I'm doing well, thank you for asking! How can I assist you today?

Which countries do you ship to?

We operate in countries including North America, Europe, the Middle East, and Asia. Our strategic hubs are located in key areas such as Dubai, London, and New York, supporting fast transit for cargo and courier.

Tell me briefly about your company.

Paramount Logistics International is a logistics company established in 2014 in Sialkot, Pakistan. Our core values include reliability, transparency, and customer satisfaction. We have offices in major Pakistani cities, as well as international offices in the United Kingdom and Dubai. We provide a range of services, including air freight, sea freight, customs clearance, and more.

Do you provide air freight?

Yes, we provide air freight services. We offer dependable, consistent, and economical air freight solutions, working with all major airlines to provide complete one-window solutions for your important products.

Do you offer sea freight?

Yes, we offer sea freight services, including Full Container Load (FCL) and Less than Container Load (LCL) options. Our ocean freight team provides fast and reliable services, handling all types of cargo transportation.

What is the difference between FCL and LCL?

The main difference between Full Container Load (FCL) and Less than Container Load (LCL) is the amount of space used in a shipping container. FCL means you rent a full container for your exclusive use, while LCL means your cargo shares a container with other shipments. This affects costs, security, and transit times.

Do you handle both imports and exports?

Yes, we handle both imports and exports. Our company provides import and export services, as well as import and export advisory services, to support your logistics needs.

Can you ship commercial cargo?

Yes, we can ship commercial cargo. As a freight forwarding company, we provide services for both air and sea freight, including Full Container Load (FCL) options, which can be used for commercial cargo.

Do you provide express shipping?

We support express shipping as one of our capabilities.

Can you arrange cross-border transportation?

We support cross-border transportation. Our services include air freight forwarding, ocean freight forwarding, road and rail transport, and intermodal and multimodal transport, which can be used for cross-border shipments.

Do you provide door-to-door delivery to Australia?

Yes, we provide door-to-door delivery. According to our services, we offer global door-to-door delivery through our Express Courier service.

Can you collect goods from my supplier in China?

We offer a Supplier Pickup capability. This service allows us to collect goods from your supplier.

Can you deliver from a warehouse to another warehouse?

We offer freight forwarding services, which include delivering goods from one warehouse to another. This capability supports the movement of cargo between warehouses, aligning with your request for warehouse-to-warehouse delivery.

How large are your warehouses?

Our warehouses are approximately 4,628 sq ft in Sialkot and 8,691 sq ft in Karachi, offering a range of services including inventory management, order processing, and distribution.

Do you provide inventory management?

Yes, we provide inventory management as part of our warehousing services. This includes inbound and outbound order processing, bar-coding, yard management, cross-docking, and kitting.

Can you consolidate cargo from multiple suppliers?

Yes, we provide cargo consolidation services, which allow us to combine shipments from multiple suppliers into a single shipment, making it easier to manage and transport your cargo.

Can you manage heavy-lift or project cargo?

Yes, Paramount Logistics supports Project Cargo, which includes handling heavy-lift or oversized machinery, subject to regulations and specific requirements.

Do you offer temperature-controlled shipping?

Yes, Paramount Logistics supports temperature-controlled shipments, where available.

Can you transport frozen food?

Yes, Paramount Logistics supports temperature-controlled shipments, which can be used for transporting frozen food, where available.

Can you ship fragile and high-value equipment?

Yes, Paramount Logistics supports Project Cargo, which includes handling heavy-lift or oversized machinery, and also offers Cargo Insurance, which can be used to transport fragile and high-value equipment, subject to regulations and specific requirements.

Do you provide customs clearance?

Yes, we provide customs clearance services. This includes import and export customs formalities, documentation, duty and tax assessment, and customs bond and entry processing.

Can you clear customs on my behalf?

Yes, we can clear customs on your behalf. This includes handling import and export customs formalities, documentation, duty and tax assessment, and customs bond and entry processing.

What documents are required for international shipping?

For international shipping, you'll need customs documentation, which includes a commercial invoice and a packing list. We can assist with shipping documentation and provide guidance on preparing these documents.

Can you help prepare a commercial invoice?

Yes, we can assist with preparing a commercial invoice for international shipping. This includes providing guidance on the necessary documentation and information required for customs clearance.

Do I need a certificate of origin?

For customs clearance, a certificate of origin is often required. It's typically needed to verify the country of origin for the goods being shipped. We can assist with customs documentation, including guidance on certificates of origin, as part of our customs clearance services.

What is the difference between a Bill of Lading and an Air Waybill?

A Bill of Lading and an Air Waybill are both shipping documents, but they serve different purposes. A Bill of Lading is used for ocean freight and serves as a contract between the shipper and carrier, as well as a receipt for the goods. An Air Waybill, on the other hand, is used for air freight and is a non-negotiable document that acts as a receipt for the goods and a contract for their transportation.

Can you help a first-time importer?

As a first-time importer, we can assist you with shipping documentation and customs clearance. Our services include guidance on preparing a commercial invoice, packing list, and other necessary documents for customs clearance. We also provide import and export advisory services to help you navigate the process.

Can you consolidate products from several suppliers for Amazon FBA?

Amazon FBA shipping and delivery services are available.

We offer cargo consolidation services, including Amazon FBA logistics. This means we can consolidate products from multiple suppliers for delivery to Amazon fulfillment centers as part of our door-to-door delivery services.

Which is cheaper for 500 kg, air freight or sea freight?
